**Subject:** Microsoft settlement

Attorney General,

It would be a great injustice to allow Microsoft to settle its monopoly suit by giving millions of \$'s of software to the schools. This would create a marketing opportunity for Microsoft. In the long run Apple would lose its market share in education. This underhanded so called honorable jester by Gates is only to increase his sales. This punishment

for Microsoft is no punishment only another profit strategy.  
Please do not support this settlement.

Thanks--Gary Fenrich(small businessman )
